

A dark, atmospheric scene with a person in a long coat standing in a misty, industrial-looking space with large glass panels. The person is on the left, looking towards the center. The background is dark with some light reflecting off the glass panels and the mist. The overall mood is mysterious and somber.

Latent Apparition

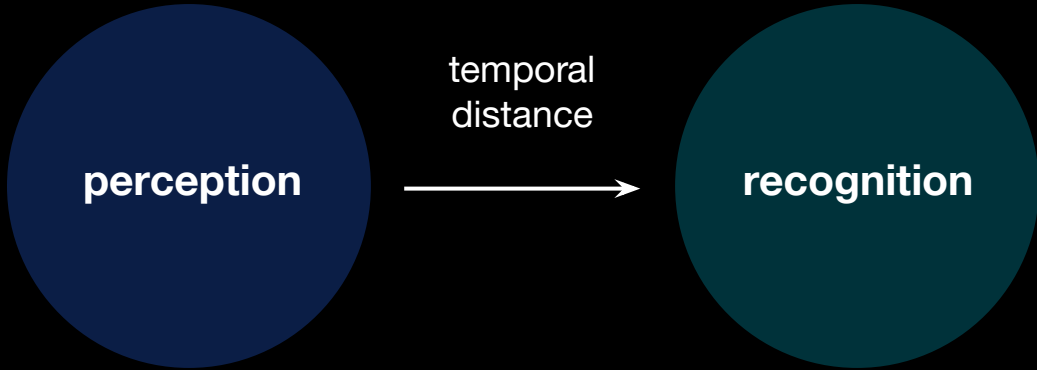

Hannah Lin, Yuhan Ye, Anki Zhu

“Self-amputation forbids
self-recognition.”

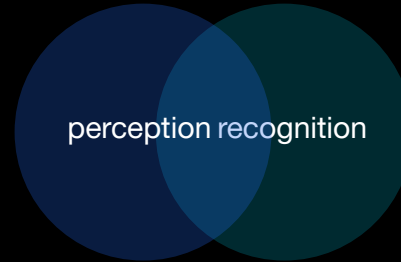

-McLuhan, 1964

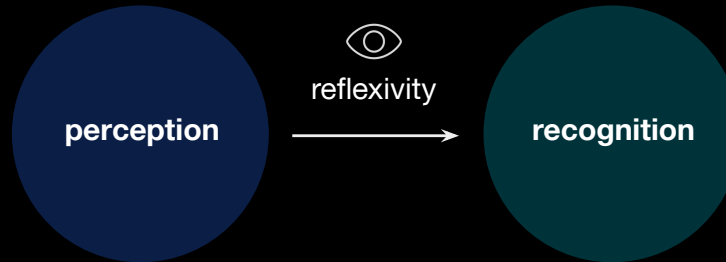

Mediated
(Collapsed
Latency)

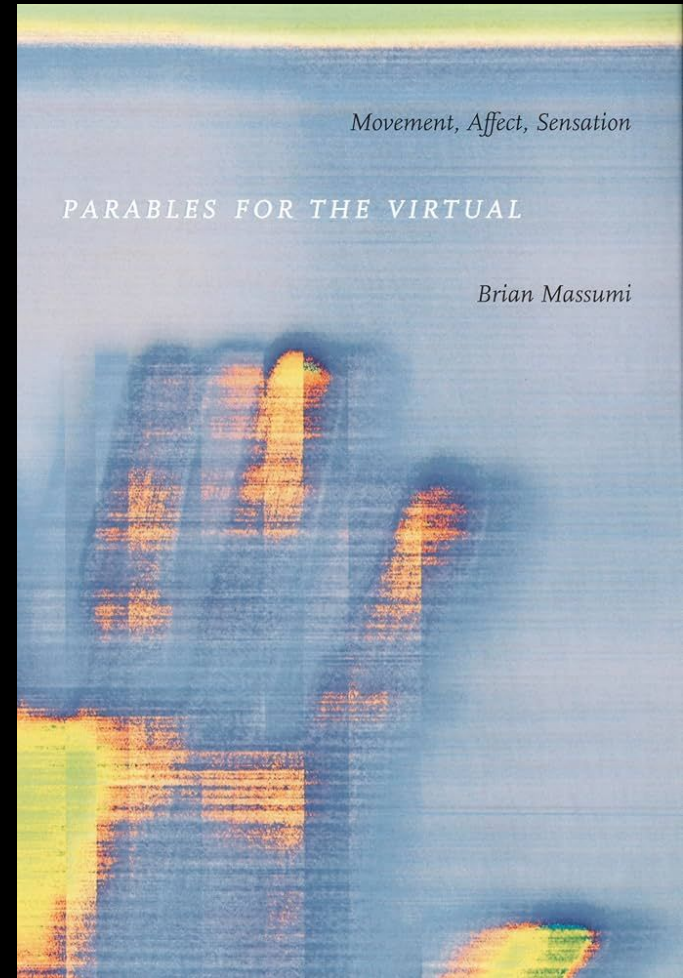

**Reflexive
Mediation**
(Reinstated
Latency)

The Missing Half Second (Massumi, 2002)

“What happens during the missing half second?...
Stimulation turns inward, is folded into the body... The
entire vibratory event is **unconscious, out of mind.**

Its anomaly is smoothed over **retrospectively** to fit
conscious requirements of continuity and linear
causality.”

“In motion, a body is in an immediate, unfolding relation to its own **nonpresent potential** to vary... **never present in position, only ever in passing...**”

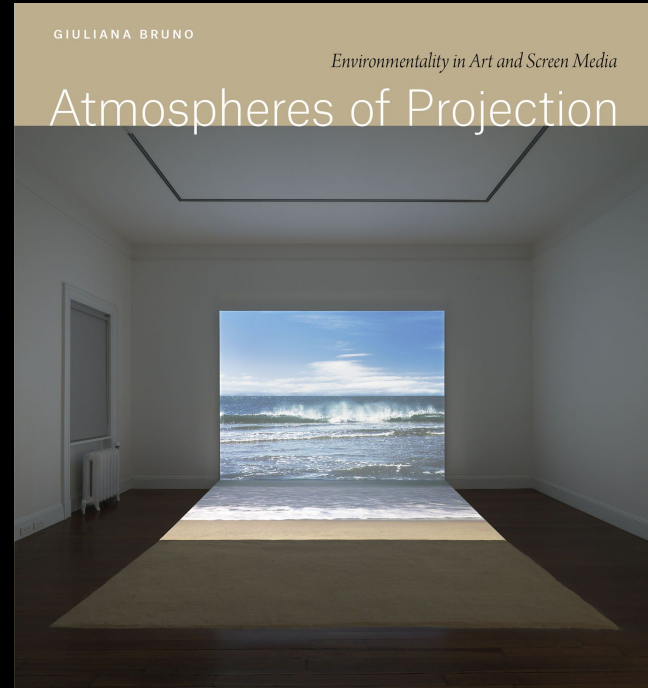

-Brian Massumi, 2002

Alexey Titarenko (1994)

“A medium is understood as a perceptual
ambiance, a field of connections. For
Benjamin...medium indicates **‘the spatially
extended environment, the milieu, the
atmosphere . . . in which perception
occurs.’**”

-Giuliana Bruno, 2022

Media diaphana (Bruno, 2022):

diaphanous, intermediary substances —
air, vapor, smoke, clouds, water, glass —
whose varying degrees of transparency and opacity **condition**
how appearance occurs.

Fujiko Nakaya (2022)

Projection (Bruno, 2022):

1. Displacement

in perspective and position; *proicere* (“to throw forth”).

2. (Psychoanalysis) Relational mediation

inner and outer, subject and object, self and world.

3. (Alchemy) Material Transformation

mediation into new forms: transmutation and transduction.

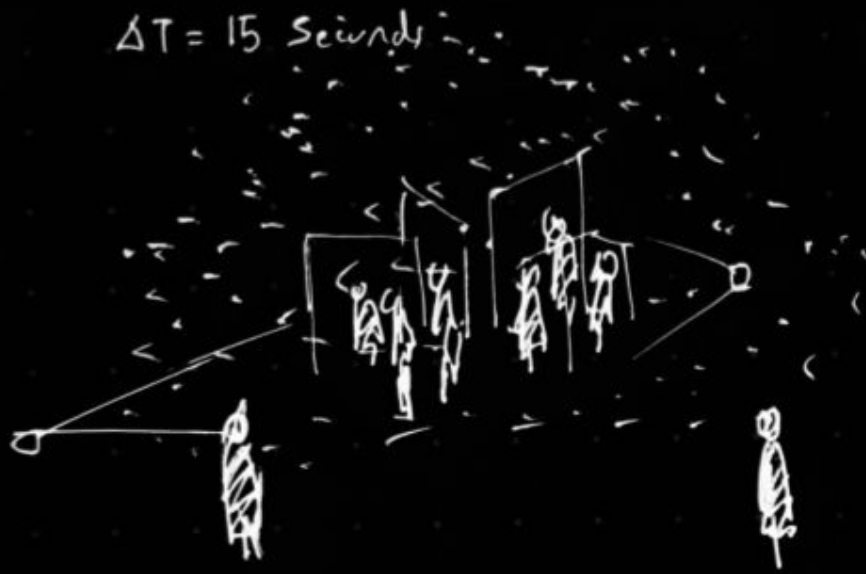

Peter Campus (1972)
